

Lynn Myers

Duration of living in Annapolis Royal:
7 years

Work background: mental health administrative assistant, academic quality assurance officer (education reform project), small business owner, middle and elementary school teacher.

Area of Focus: municipal sustainability.

What I Bring to the Table: As a small business owner and someone with experience in systems reform, I bring a unique perspective that can contribute to Annapolis Royal's continued viability as its own municipality. Quality of life issues and climate change mitigation are critical, but they are contingent on the continued existence of the town as an entity. I am dedicated to assisting in developing creative solutions which leverage grants, new and existing
