

Sybil Skinner Robertson

I moved to Annapolis Royal when I retired in early 2023 and have since volunteered for various organizations, including Save Our Pool, Natal Days, Annapolis West Health Foundation, the Town Health Care Task Force and Physician

Recruitment Video, and most recently, the Annapolis Royal Volunteer Fire Department. With over 30 years of experience in nursing and medical research, I excel in identifying challenges and implementing solutions effectively. My skills include managing difficult discussions and communicating complex issues clearly. As a Town Councillor, I will focus on healthcare, addressing the impacts of rising sea levels and severe weather on the town, housing affordability, and supporting local businesses and social groups.
