

**Addendum # 1 RFP-2026-03-26-02**

**Website Development and Hosting**

1. Beyond the listed features and those on your website, are there new features you would like to see as options? **Some additional ideas, but not limited to;**
  - a) **Scrolling Banner that can take a user to more information on subject by clicking on the banner.**
  - b) **Quick access to all items from main page by having more effective header with drop down menu.**
  
2. Could you briefly explain why the Town needs a new website?
  - a) **Current software outdated with limited functionality.**
  
3. Do you have a preferred Content Management System in mind, or are you open to all options? **Open to all options**
  
4. Does the Town plan to handle the content migration, or would you like us to quote that service? If you would like us to provide the service, would you be able to provide a sitemap? **Content migration service should be included in quote**
  
5. Should the back-end system have a French option, or is this only required for the public website? **Only for public website**
  
6. Does the Town have a budget range? **We do not provide this information**
