Dear Mayor Boyer:

I am very concerned about the proposal to discontinue streaming committee of the whole meetings and urge the Council to vote "no" on the issue.

I believe full transparency is imperative in all levels of government operations. As town residents and voters, we deserve to know how and why our elected officials are acting on our behalf. Attending Council meetings is not a viable option for all of us.

I understand the need for privacy but surely there are alternative solutions. Please give this issue more study before voting to discontinue the service.

Thank you,

Grace Butland
