Dear Mayor Boyer:

I saw you today at Arch and Po, but didn't want to interrupt your time with this. So glad they are back and you and I can go there again!!!.

I feel VERY strongly that Council meetings need to **remain livestreamed**. If councilors have privacy issues, their faces can be kept off screen. You are ALL elected officials voted into office by the public and the public is entitled to transparency in local government. Period. We cannot all go and attend, but this way we can educate ourselves on issues, etc.

We have enough issues of secret meetings behind closed doors with our current provincial super majority government. We do NOT need or want this in our wonderful town governance.

Thank you kindly for listening,

Margie Wells-Friedman
