News from Valley Waste-Resource Management:

The amount of garbage that is produced per capital in the Valley Waste region is 349Kg per person (based on 2024-2025 numbers). This compares favourably to the provincial average of 457kg per person. As a result, we are paying less for solid waste disposal. It is just one example of how all of us can have an impact on containing and even reducing costs over time. The Town is a partner in Vally Waste.

News from Tidal Transit:

On August 4, Tidal Transit (formerly called Kings Transit) will be working with local radio stations (Rewind 89.3, ARV 97.7, and Magic 94.9) to promote a launch day for its updated schedule across the system. Advertising campaigns and contests will start in June to raise public awareness. Social media and print materials are being developed. And on another note, Tidal Transit has just received news of a successful grant application for \$8 million. The Town is not a full partner in Tidal Transit, but does provide some funding through the Municipality of the County of Annapolis.

Both Valley Waste-Resource Management and Tidal Transit are managed by the Valley Regional Services Board (VRSB).

Mayor Amery Boyer

Starting April 1st, 2026 - Change to Bulky Waste Collection

Valley Waste has made an important change to the way bulky waste is collected in the Annapolis Valley. Previously, residents had designated Spring and Fall Clean-Up weeks where multiple large items could be placed at the curb for collection. This program has now been replaced with a year-round bulky waste collection system.

What's Changing

- Residents may now place **up to two bulky waste items per household unit** at the curb. (These are usually items that cannot fit in a regular garbage bag).
- These items can be set out **with their regular scheduled garbage collection**.

This replaces the former **Spring and Fall Clean-Up events**.

Private Roads

If residents live on a private road and get collection from the smaller cottage truck, they will need to contact their road association or call us for more information on their clean-up collection and dates.

Examples of Bulky Waste Items

Common items include furniture such as couches, chairs, mattresses, box springs, and similar large household items.

Important Reminders

- The limit is **two bulky items per unit at one time**.
- Items must be placed **curbside on regular collection day**.
- Regular garbage bag limits and sorting rules still apply.

Please visit Valley Waste website to see what is accepted.

Why the Change

Moving to a year-round bulky waste system allows residents to dispose of large items **when they need to**, rather than waiting for seasonal clean-up weeks. It also helps reduce illegal dumping, reduces costs, and improves overall waste management in the Valley.
